- Which laws do you admire most and which laws do you admire least in your own country? Why?
- Which laws and customs would you like to change in your own country?

## Populate Ideal Land

*A large area of your country has been set aside by the current government for the development of a new nation. This area will include an invited international community of 20,000 men and women. Imagine that your group has to decide the laws of this new country. Decide which laws will be followed and how many freedoms will be allowed.*
